Wencomine Fleet Management Solutions

The easiest way to command your fleet and control your operation

Take charge with Wencomine, the simplest path to better mine performance. Our fleet management system provides everything your open pit needs to assign equipment, control payloads, streamline haul cycles, and get more out of your mine.

Wencomine links hardware, software, and communications systems to make running your mine as simple as clicking your mouse. Onboard computers and desktop software work in tandem to give you full control of your mining equipment.

Now, everyone on site can work from the same information, staying in sync for smooth and safe production. It's never been easier for mines to produce more in less time, with lower operating costs (and fewer headaches).

- **Boost Productivity**
- **Decrease Costs**
- **Improve Safety**
- **Extend Equipment Life & Utilization**

Your Mine, Managed

Off-route trucks? Engine overspeeds? Payload compliance? Handle them all and more, thanks to Wencomine's real-time data. Moment-by-moment updates let you respond to issues in seconds, keeping your mine on target.

Control with a Click

Gain full control of every truck, shovel, and auxiliary unit through Wencomine's drag-and-drop interface. Switch assignments, examine reports, and respond to OEM alerts. It's as easy as clicking a button.

Decisions that Make a Difference

Dig into any KPI — wait times, cycle times, payload weights, availability, grade quality, and more. Customized reports offer the exact information you need for better performance now — and in the long term.

Open & interoperable platform.

Advanced data handling and user-friendly reporting integrated across all aspects of pit operations.

Improved situational awareness, quality, and productivity — all at your fingertips.
