1. Management Performance and Financial Conditions

(1) Management Results

As the HCM Group's medium-term management plan starting in the fiscal year under review, "Realizing Tomorrow's Opportunities 2022," in order to further strengthen the value chain business, on which the Group continues to focus, the Group is using state-of-the-art digital technology to provide deeper solutions at every point of contact with customers, and is working to make its corporate structure resilient to change.

During the fiscal year under review (April 1, 2020 to March 31, 2021), revenue was ¥813,331 million (a decrease of 12.7% year-on-year), mainly due to the impact of the yen's appreciation, despite an increase in sales of rental and used machinery in the value chain business, on which we are focusing. This was due to a decrease in new machinery sales and parts and service caused by the deteriorating market conditions due to COVID-19 and a decrease in new mining machinery sales and parts and service due to customers restraining capital expenditure. As for consolidated income items, adjusted operating income was ¥32,710 million (a decrease of 57.3% year-on-year), mainly due to a decrease in revenue, an increase in the cost of sales ratio, and the impact of yen appreciation. Profit attributable to owners of the parent company was ¥10,340 million (a decrease of 74.9% year-on-year), mainly due to a decrease in adjusted operating income, a decrease in equity in earnings of unconsolidated subsidiaries and affiliates, and an increase in the contribution of non-controlling interests.

Business results by segment are described below.

1. Construction machinery business

Demand for hydraulic excavators in the fiscal year under review was lower than that in the same period of the previous fiscal year in major regions such as Europe and North America, while worldwide demand increased from the previous fiscal year mainly due to a significant recovery in China. Mining companies continue to restrain their capital investment, and the demand from small and medium-sized mining companies decreased in particular.

Consequently, in the consolidated fiscal year under review, revenue was ¥734,207 million (a decrease of 12.7% year-on-year), reflecting the impact of lockdowns in various countries, a decrease in new machinery sales and parts and service, and the impact of yen appreciation, despite an increase in rentals and used machinery. Adjusted operating income was ¥25,798 million (a decrease of 62.4% year-on-year), mainly due to a decrease in revenue and the impact of yen appreciation.

2. Solution business

This segment consists primarily of Bradken Pty Limited and its subsidiaries, which are engaged in the parts service business in the after-sales of mining facilities and machinery, and H-E Parts International LLC and its subsidiaries, which provide service solutions.

Revenue for the fiscal under review was ¥82,437 million (a decrease of 10.4% year-on-year) due to a decline in demand.

Adjusted operating income was ¥6,912 million (a decrease of 14.6% year-on-year), due to the decrease in revenue.

The above revenues of segment 1 and 2 are figures before intersegment adjustments.

The following table summarizes consolidated net revenue by geographic area:

(2) Outlook for the Fiscal Year Ending March 2022

In the fiscal year ending March 2022, we forecast at this stage that demand for hydraulic excavators will increase in major regions as the market recovers, compared with the previous fiscal year. However, demand in China will decline significantly compared with the previous fiscal year due to a recent surplus in the number of operating units in China. As a result, we assume that worldwide demand for hydraulic excavators will reach approximately 220,000 units (a decrease of 4% over the previous year).

Demand for new mining machinery has been sluggish until recently, but the market has been showing signs of recovery in some regions, and we expect this to turn upward gradually in the second half of Fiscal 2021 onward. In some areas, mining operations were shut down due to COVID-19. As a result, our parts and service business and solutions business were trending downward, but we expect that capital investment of mining companies will improve gradually as the global economy recovers.

Based on the above forecasts, the forecasts for the fiscal year ending March 2022 (from April 1, 2021 to March 31, 2022) are as follows, taking into account various factors of concern at this time.

These forecasts are based on the following exchange rates: ¥105 to one U.S. dollar, ¥125 to one euro, ¥15.5 to one Chinese yuan, and ¥73 to one Australian dollar.

(3) Analysis of Financial Condition

[1] Status of Assets, Liabilities, and Net Assets

(a) Assets

Current assets at the end of the fiscal year amounted to ¥ 617,193 million, an increase of 0.7%, or ¥ 4,414 million, from the previous fiscal year-end. This was mainly due to an increase of ¥ 18,165 million in cash and cash equivalents although there was a decrease of ¥ 1,472 million in trade receivables and ¥ 3,456 million in inventory.

Non-current assets amounted to ¥ 603,378 million, an increase of 8.8%, or ¥ 48,590 million, from the previous fiscal year-end. This was due mainly to an increase of ¥ 30,382 million in property, plant and equipment.

As a result, total assets increased by 4.5%, or ¥ 53,004 million, from the previous fiscal year-end to ¥ 1,220,571 million.

(b) Liabilities

Current liabilities amounted to ¥ 372,454 million, an increase of 0.3%, or ¥ 1,088 million, from the previous fiscal year-end. This was mainly due to increases of ¥ 6,801 million in trade and other payables and ¥ 2,227 million in Contract liabilities although there was a decrease of ¥ 10,185 million in Bonds and borrowings.

Non-current liabilities amounted to ¥ 278,872 million, an increase of 2.9%, or ¥ 7,782 million, from the previous fiscal year-end. This was mainly due to an increase of ¥ 1,732 million trade and other payables.

As a result, total liabilities increased by ¥ 8,870 million, from the previous fiscal year-end to ¥ 651,326 million.

(c) Equity

Total equity increased by 8.4%, or ¥ 44,134 million, from the previous fiscal year-end to ¥ 569,245 million. This was mainly due to net income and upturn in foreign currency translation adjustments.

(English translation of “KESSAN TANSIN” originally issued in the Japanese language.)

[2] Analysis of the Status of Consolidated Cash Flows

Cash and cash equivalents at the end of the fiscal year totaled ¥ 80,330 million, an increase of ¥ 18,165 million from the beginning of the fiscal year. Statement and factors relating to each cash flow category are as follows:

(Net cash provided by operating activities)

Net cash provided by operating activities for the fiscal year based on ¥ 14,627 million in net income and ¥ 44,412 million in depreciation, and included a ¥ 21,164 million decrease in trade receivables and contract assets, a ¥ 25,501 million decrease in inventories, a ¥ 19,237 million decrease in trade payables, and a ¥ 10,161 million income tax paid as cash outflow.

As a result, net cash provided by operating activities for the fiscal year totaled to an inflow of ¥ 91,339 million, an increase inflow of ¥ 68,657 million year on year.

(Net cash provided by (used in) investing activities)

Net cash used in investing activities for the fiscal year amounted to ¥ 32,281 million, a decrease of ¥ 2,468 million year on year. This was mainly due to an outlay of ¥ 28,311 million for capital expenditure and ¥ 4,893 million for intangible assets so forth.

As a result, free cash flows, the sum of net cash provided by operating activities and net cash used in investing activities, amounted to an inflow of ¥ 59,058 million.

(Net cash provided by (used in) financing activities)

Net cash used in financing activities for the fiscal year amounted to ¥ 46,011 million. This was due mainly to a decrease of ¥ 42,150 million in repayment from short-term borrowings and ¥ 11,528 million dividends paid (including dividends paid to non-controlling interests) as cash outflow.

As a result, cash for financing activities for the fiscal year produced an increased outflow of ¥ 57,004 million year on year.

(Reference) The following table describes HCM's cash flow indicator indices:

	March 2021	March 2020	March 2019
Equity attributable to owners of the parent ratio (%)	42.1	40.6	41.0
Equity attributable to owners of the parent ratio on a market price basis (%)	61.8	39.9	52.7
Interest-bearing debt to operating cash flow ratio (%)	3.6	14.9	(11.9)
Interest coverage ratio (times)	17.3	3.3	(4.8)

Notes:

Equity attributable to owners of the parent ratio: Equity attributable to owners of the parent/total assets

Equity attributable to owners of the parent ratio on a market price basis: Share market price/total assets

Interest-bearing debt to operating cash flow ratio: Interest-bearing debt/cash flows from operating activities

Interest coverage ratio: Cash flows from operating activities/interest paid

1. Indices are calculated using consolidated figures.
2. The share market price is calculated by multiplying the closing price at the end of the period by the number of outstanding shares at the end of the period (after excluding treasury stock).
3. Cash flows from operating activities reflect cash flows from operating activities as detailed in the Consolidated Statements of Cash Flows. Interest-bearing debt reflects all debt for which the Company is paying interest as detailed in the Consolidated Balance Sheets. Interest payments reflect interest paid as detailed in the Consolidated Statements of Cash Flows.

(4) Dividend Policy

The Company will work to bolster its internal reserves while considering maintenance and strengthening of its financial structure and implementation plans for upfront investments, including investments for technology development and facilities based on medium- and long-term business strategies. At the same time, the Company will, in principle, pay dividends of surplus linked to its consolidated business results twice a year as interim and year-end dividends and aim to achieve a consolidated dividend payout ratio of approx. 30% or more.

With the aim of enabling the execution of a flexible capital policy, the Company will acquire treasury stock in consideration of necessity, financial conditions, and stock price movement, etc.

(English translation of "KESSAN TANSIN" originally issued in the Japanese language.)

2. Our Fundamental Position Concerning Selection of Accounting Standards Policy

The HCM Group has been actively promoting global business development and aims to further increase its corporate value by building a management foundation that can accelerate management visualization and management enhancement as well as governance reinforcement. As part of these efforts and for the purpose of improving the international comparability of financial statements in the capital markets by introducing IFRS, which is a global standard, and unifying the accounting methods within the Group, HCM voluntarily adopts the International Financial Reporting Standards (IFRS) from the presentation of the consolidated financial statements in its annual securities report for the fiscal year ended March 31, 2015.

(English translation of “KESSAN TANSHIN” originally issued in the Japanese language.)

(Segment Information)

1. Reportable segment information

1) Overview of business segments

The operating segments of the Group are the components for which separate financial information is available and that are evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The reportable segments are determined based on the operating segment.

Taking into consideration the nature of products and services as well as categories, types of customers, and economic characteristics in a comprehensive manner, the company determines to classify two reportable segments as follows: The Construction Machinery Business Segment primarily intends to provide customers with a series of total life cycle solutions related to construction machinery such as the manufacture and sale of hydraulic excavators, ultra-large hydraulic excavators, and wheeled loaders, as well as the sale of parts related to these products. The Solution Business Segment primarily intends to provide services, production, and distribution parts that are not included in the Construction Machinery Business Segment.
