<Reason for the Revision>

(1) Consolidated Earnings for the Second Quarter ended September 30, 2009 (April 1, 2009 to September 30, 2009)

With respect to the market for construction machinery, during the second quarter under review (April 2009 to September 2009), demand fell continuously, especially in advanced nations. On the other hand, in emerging countries such as China, Indonesia and India, etc., began trending upward. Under these circumstances, the Company continued to focus on reducing stocks, curbing and reducing additional fixed costs and material costs, etc.

Accordingly, as shown above, the Company decided to revise its consolidated results forecasts for the second quarter ended September 30, 2009.

Note: The above performance forecasts were prepared on the basis of information available as of the date of this announcement. Various factors could cause actual results to differ from these forecasts.
