## Remanufactured Parts by Hitachi Construction Machinery

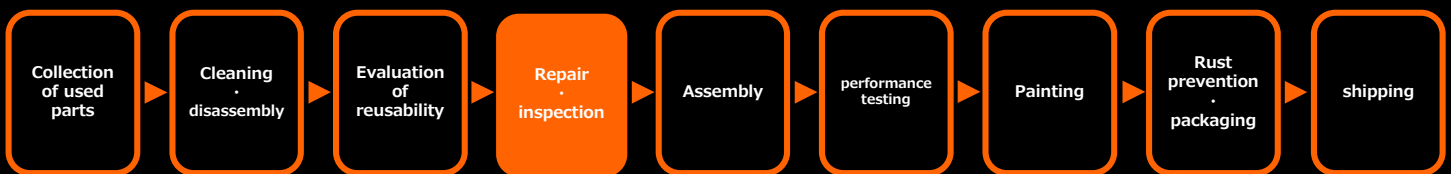

Hitachi Construction Machinery  
**REMANUFACTURED**

### What is Hitachi Construction Machinery's "Remanufactured Parts"?

These are products which Hitachi Construction Machinery collects used parts and reconditions and repairs them to the same functionality as new products.

Remanufactured parts are more inexpensive than new, but come with manufacturer's warranty equivalent to new parts.

### The remanufacturing process

Restore the functionality of the component according to established criteria.

#### Example of machining repair(reglazing)

#### Inspection

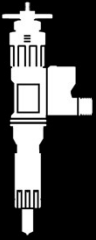

# Example of remanufactured parts

## Cylinder

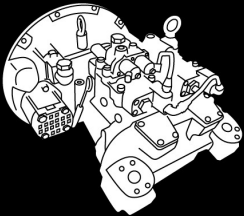

## Injector

Some parts are difficult to restore to a like-new appearance due to exposure to high temperatures or other reasons. Please use the product with confidence since performance tests have confirmed that there are no functional problems.

## Hydraulic Pump

Since we changed to the black paint with a low environmental impact, some parts are black.
