The year 2020 marked two milestones for the HCM Group. First, we marked our 50th anniversary as a company and second we celebrated the 70th anniversary of developing and mass producing construction machinery using exclusively Japanese technologies. We believe that the products and technologies that we have created over the past seven decades represent the very history and the culture of the HCM Group. The HCM Group will continue to tackle challenges around the world with a strong sense of pride in its manufacturing.
Contents

Editorial Policy
From fiscal 2011, we consolidated our Annual Report, which reported our management strategy and financial statements, and our CSR Report, which reported Environment, Social, and Governance (ESG) information, to produce a comprehensive CSR & Financial Report. We did this to provide a clear overview of the activities of the Hitachi Construction Machinery Group as it aims at the integrated advancement of its environmental management, social contribution, and governance management as a corporate group. In the FY2020 CSR & Financial Report, we have highlighted the areas described right to allow our stakeholders to gain a clearer understanding of the Hitachi Construction Machinery Group’s corporate management.

Reporting Period
April 1, 2019 - March 31, 2020
