

The HCM Group's Philosophy

Soon after the end of World War II, HCM embarked on a new journey to develop, manufacture, market and provide services for construction machinery in an effort to contribute to Japan's reconstruction using our own technologies. The origin of this commitment traces back to Hitachi's founding spirit of "harmony," "sincerity" and "pioneering spirit." This spirit has been passed down over the years as the very fabric of our corporate DNA and is firmly entrenched in the Kenkijin Spirit that forms the heart of the HCM Group's shared values and codes of conduct. Using the Kenkijin Spirit as a driving force, we are working to create new value in order to achieve Our Vision.

Hitachi Construction Machinery's Vision

"To pass on a productive environment and prosperous cities to future generations. HCM Group helps to create comfortable living spaces."

Identity

Part of our vision is to be active in the evolution of "machinery" and the synergy between "human" and "business" that combines to create rich living spaces, making them more comfortable, developed and efficient.

Our philosophy

Innovation

We will continually develop and supply innovative technologies, products and services that generate new value for customers.

CSR

We are committed to generating stable profits and also acting as a good corporate citizen widely aware of our connections with society, including harmony with the environment, social contributions, and cultural activities.

"Kenkijin Spirit"

To realize our philosophy, it is vital that we fulfill the HCM Group's mid- to long-term vision and mid-term management plan while addressing the needs of society in the form of our CSR. The driving force behind these efforts will be our people (Kenkijin). If these actions are in line with shared values and guiding principles, we can pursue our goals while making the most of each employee's ideas and initiatives.

The Kenkijin Spirit codifies the shared values and codes of conduct for all HCM Group employees. The underlying commitment behind this spirit are the three words "Challenge," "Customer" and "Communication."
