

Correction in “Integrated Report 2021” and “ESG Data Book 2021”

Hitachi Construction Machinery hereby announces the following corrections in “Integrated Report 2021” and “ESG Data Book 2021” due to an error in CO2 reduction aggregation scope. The corrections are underlined. PDF files on our website has been revised.

Integrated Report 2021

Page 30, Value Creation Model

OUTPUT (FY2020 results)

Developing products and technologies to deal with climate change

[Before correction]

-Reduction of CO<sub>2</sub> emissions from products (total amount): -16.5

-Reduction in CO<sub>2</sub> emissions from production (total amount): -37.2

[After correction]

-Reduction of CO<sub>2</sub> emissions from products (Scope3) (absolute emissions): -16.5%

-Reduction in CO<sub>2</sub> emissions from production (Scope1+2)(absolute emissions): -27.2%

ESG Data Book 2021

Page 4, Values Beyond the Important Issues for a Sustainable Society (Targets)

[Before correction]

Items		Description	FY2019 Results	FY2020 Results
CO <sub>2</sub> reduction	Production	CO2 reduction (absolute emissions) compared to fiscal 2010	-25.1%	-37.2%

[After correction]

Items		Description	FY2019 Results	FY2020 Results
CO <sub>2</sub> reduction	Production	CO2 reduction (absolute emissions) compared to fiscal 2010	<u>-20.1%</u>	<u>-27.2%</u>

## GHG Emission Targets

SBT (Science-based Targets) of the Hitachi Construction Machinery Group

[Before correction]

Scope1+2	FY2020 Result 37.2% reduction
----------	-------------------------------

[After correction]

Scope1+2	FY2020 Result <u>27.2%</u> reduction
----------	--------------------------------------
