Reliable solutions

# REMANUFACTURED COMPONENTS

Hitachi Construction Machinery offers remanufactured parts as an alternative to the purchase of new parts and parts repairs. Remanufactured parts contribute to reduced machine downtime and maintenance costs, and maintain high machine performance.

*High quality "Made by Hitachi"*

*Same manufacturer warranty as new and genuine parts*

*Steady maintenance costs*

*Reduced downtime*

*Environmentally conscious*

## Product lineup

Travel device

## High quality "Made by Hitachi"

The same strict quality criteria used for new parts are applied to remanufactured parts, ensuring that only parts that pass strict performance tests are delivered to customers around the world. High quality "Made by Hitachi" remanufactured parts also support machine profitability.

## Same manufacturer warranty as new and genuine parts

This logo means remanufactured components by Hitachi Construction Machinery are covered by the same manufacturer warranty as new and genuine parts for total peace of mind.

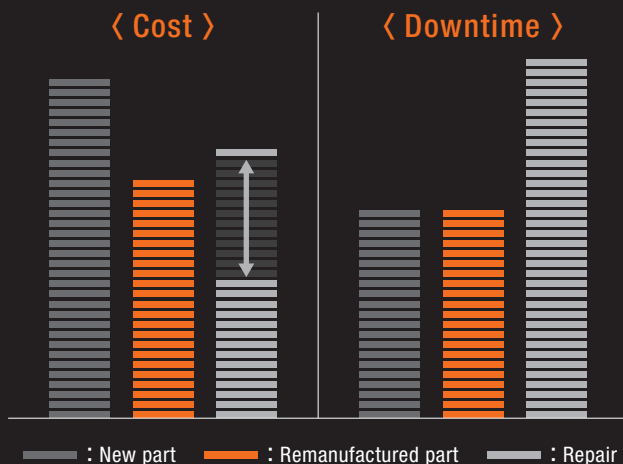

**Hitachi Construction Machinery**  
**REMANUFACTURED**

## Steady maintenance costs

When using remanufactured parts, maintenance costs for breakdowns are more steady when compared with parts repair.

## Reduced downtime

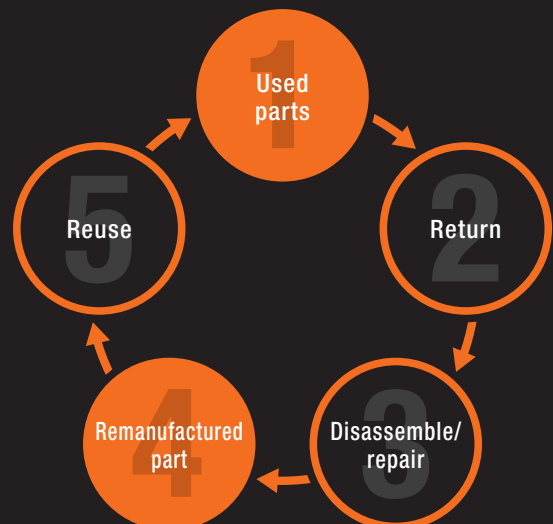

With the use of remanufactured parts, the replacement of broken components is possible, reducing downtime when compared with parts repair.

## Environmentally conscious

Hitachi Construction Machinery will collect your used parts, and transform them into remanufactured parts after disassembly and repair for use by the next customer. The use of remanufactured parts by Hitachi Construction Machinery enables you to contribute to protecting the environment, and ensuring the maximized use of resources.

\*The use of remanufactured parts requires you to return used parts. Please return parts when purchasing remanufactured parts.

Before using a machine with a telematics communication system, please make sure that the satellite communication system complies with local regulations, safety standards and legal requirements. If not so, please make modifications accordingly.

These specifications are subject to change without notice. Illustrations and photos show the standard models, and may or may not include optional equipment, accessories, and all standard equipment with some differences in color and features. Before use, read and understand the Operator's Manual for proper operation.
